

what's new @ IEEE Xplore®

New Features in the IEEE Xplore Digital Library

IEEE Xplore API

IEEE recently launched a state-of-the-art IEEE Xplore API platform along with a new Metadata API. This platform and its capabilities address growing customer requests and STM industry movement toward machine-readable content.

MyXplore App

Stay current with new documents in fields of interest with the convenient MyXplore smartphone app. This easy-to-use app allows users to set up searches based on technology areas of interest and automatically receive notification of new IEEE Xplore content published within those areas. Quickly scan abstracts and metadata within the app and link over to IEEE Xplore for the full text. Download from the App Store and Google Play.

Citation and eBook Alerts

Authors and users can now be alerted when a document in IEEE Xplore is cited in a recently published article. Alerts for new eBook titles can now be filtered by publisher, including IEEE-Wiley, MIT Press, and Morgan & Claypool.

Bulk PDF Download and Downloading Full Issues

Customers with select unlimited subscriptions now have the option to download up to 10 PDFs at one time on the search results page. For select publications, users are now able to select and download multiple PDF documents at once.

Code & Datasets Tab

IEEE Xplore articles with the new Code Tab contain a link to Code Ocean, a third-party website with a mission to make the world's scientific code more open and reproducible. Through Code Ocean, users can share, download, edit, and run code associated with research published in IEEE Xplore.

Coming Soon

- Image Search—Search and discover millions of tagged images extracted from IEEE journals.
- Author Profiles—Access views of each author's published research activity in IEEE Xplore.
- Affiliation Disambiguation—Normalizes variations of author affiliations in IEEE Xplore.
- Institutional Profile Pages—Access dashboard views of institutions associated with research articles published in IEEE Xplore.
- Linking to External Datasets—Expands access from IEEE Xplore articles to relevant data repositories.
- Responsive Designs—Improves accessibility to IEEE Xplore from mobile devices.
- Improved Experience for Conferences and eBooks—Easier navigation and discoverability in IEEE Xplore.

About IEEE

IEEE is a leading authority on areas ranging from aerospace, computers, and telecommunications to biomedicine, electric power, and consumer electronics. This nonprofit organization publishes leading journals in numerous technology fields, sponsors or co-sponsors more than 1,700 annual technical conferences, and has more than 7,000 current industry standards.

IEEE Journals Highly Ranked in Electrical & Electronic Engineering

IEEE journals continue to dominate in the rankings, according to the 2016 Journal Citation Reports® (Clarivate Analytics, 2017).

Results include:

- 22 of the top 25 journals in Electrical and Electronic Engineering
- 13 of the top 15 journals in Telecommunications
- 4 of the top 5 journals in Computer Science—Artificial Intelligence
- 4 of the top 5 journals in Computer Science—Information Systems
- 3 of the top 5 journals in Automation & Control Systems
- 3 of the top 5 journals in Computer Science—Hardware and Architecture
- 2 of the top 5 journals in Computer Science—Cybernetics

New Subscription Titles in IEEE Xplore

As the technology landscape evolves, so does the content in IEEE Xplore.

New subscription titles coming in 2018 include:

- *IEEE Letters of the Computer Society*
- *IEEE Control Systems Letters* (available mid-2017)
- *IEEE Sensors Letters* (available mid-2017)
- *IEEE Solid-State Circuits Letters*

New subscription titles for 2017 included:

- *IEEE Communications Standards Magazine*
- *IEEE Journal of Electromagnetics, RF, and Microwaves in Medicine and Biology*
- *IEEE Transactions on Emerging Topics in Computational Intelligence*
- *IEEE Transactions on Green Communications and Networking*
- *IEEE Transactions on Radiation and Plasma Medical Sciences*
- *IEEE Journal of Radio Frequency Identification (RFID)*

To browse all titles in IEEE Xplore, visit: www.ieee.org/ieeexplore

Other IEEE Xplore Headlines

- The IEEE-Wiley Telecommunications eBooks Library is now available in IEEE Xplore.
- The Foundations and Trends eBooks collection is coming soon to IEEE Xplore.
- A Wake-Up Radio Technology document is now available.
- New online course programs in Cyber Security, Ethical Hacking, and Internet of Things (IoT) are available.

What's New with InnovationQ Plus

InnovationQ Plus launched as the only patent search and analytics tool with full-text IEEE content and a patented semantic search engine to derive comprehensive results and insights. Now, there is even more to help you discover and analyze patent and scientific literature to make critical business decisions. The platform now has three times the number of patent authorities, a newly redesigned interface, enhanced search capabilities providing the best of both worlds of semantic searching and Boolean, a new corporate tree based on S&P Global Market Intelligence Company Relationships data, and next generation semantic mapping to help you determine market opportunities, competitive intelligence, and more.

See how InnovationQ Plus has evolved into the ideal patent search and analytics solution: <https://innovationqplus.ieee.org/why-innovationq-plus/new-features>

IEEE Tools for Librarians

- Journal and conference titles listings
- OPAC link instructions
- Online training seminars
- IEEE Xplore search buttons
- Self-paced instant training modules
- User guides
- Usage statistics
- Customizable event flyers
